

## THE LIST OF IAC AR DIRECTIVE LETTERS

### THE LIST OF EFFECTIVE IAC AR DIRECTIVE LETTERS

NUMBER DATE	TITLE
3-92 28.05.92	On the role of Military Acceptance at aviation organizations
n/n 09.09.94	On adoption of qualification requirements KT32-01 for aircraft wheels and KT32-02 for aircraft tires.
2-95 29.03.95	On fail-safety requirements to rotorcraft
3-95 10.10.95	On procedure of interaction between the Developer and the Manufacturer with the foreign Suppliers
4-95 23.11.95	On validity of Type Certificate № 79-32 for the An-32B - a restricted category aircraft
5-95 01.11.95	Updating of the AP-21 requirements (Chapters F and G) in part of supervision by the Developer and the Manufacturer over the Supplier of materials and appliances
7-95 03.11.95	Qualification of welders
1-96 29.01.96	Interpretation of the AP-21 provisions, Chapter 9, regarding Appliances specification
5-96 30.12.96	Implementation of MOC to AP25.571 " Design safety in part of structural integrity during continued operation
1-97 31.03.97	On providing airworthiness of the leased aircraft while beyond of the territories of States - Signatories of the Minsk Agreement.
2-97 08.07.97	On the validation procedure for issuance of Supplement to Type Certificate (AP-21, Chapter 14)
3-97 25.11.97	On certification (specification) of aeronautical products with software
4-97 10.31.97	On designation of the IAC AR representatives at repair stations
10-94/97 22.12.97	Permission for imported appliances to be installed on aircraft
1-99 24.06.99	On implementation of the document "Recommendation material RM-178A. Evaluation of the on-board equipment and systems software compliance with KT-178A requirements".
2-99 30.09.99	Appliances qualification (specification) procedure
1-2000 19.01.2000	On implementation of Guidance 23-29.605 on methods of compliance of aeronautical product manufacturing process with the Aviation Regulations (AP) requirements
2-2000 29.06.2000	Extended range flights of the airplane with two gas-turbine engines (ETOPS)
3-2000 30.06.2000	Aeronautical product components production certification
4-2000 30.06.2000	Procedure to supply the replaceable components for civil aeronautical products
11-95/2001 25.01.2001	Appliances classification and clarification
2-2001 21.05.2001	Additional requirements for the control of the materials and components suppliers
3-2001 26.06.2001	Implementation of the Procedure for the Initial Airworthiness Certificate issue
6-95/2001 02.07.2001	Aircraft and their parts identification. The Export Airworthiness Certificates issue
7-2001 19.11.2001	Incorporation into TC Data Sheet of information about A/C Manufacturer
1-2001 07.02.2002	Certification of enterprises-suppliers of components of aeronautical products

17.06.2011

02-2002 07.05.2002	Development and formulation of the appliance Qualification Basis
03-2002 30.04.2002	On normalizing the procedure for classification of modifications of aeronautical products Type Design
04-2002 30.12.2002	Performance of civil aircraft exemplars modification at the repair organizations
02-2003 28.08.2003	The Procedure for forming "Product log book". Supervision over Type Design modifications approval in product series production.
03-2003 26.09.2003	Technical Specification for civil aeronautical product
04-2003 24.09.2003	On entering into force of Advisory circulars to Aviation Regulation, Part 33 "Airworthiness standards for engines" (AP-33)
02-2004 05.03.2004	On entering into force of Advisory circulars to Aviation Regulation, Part 33 "Airworthiness standards for engines" (AP-33)
03-2004 12.04.2004	The order on submission to IAC AR the information on aircraft incidents, accidents and deviations in productions as well as on aeronautical product's failures, malfunctions and damages
04-2004 27.04.2004	Procedure for imported appliances approval
05-2004 03.08.2004	On implementing Recommendatory Circular to AP-25.
06-2004 01.11.2004	On certification (qualification) of aeronautical products with software.
07-2004 28.10.2004	On implementing IAC AR Recommended Material (RM-178B) "Evaluation of aircraft equipment and systems software for compliance with the KT-178B requirements".
08-2004 08.12.2004	On implementing Qualification Requirements KT-160D "Operational and environmental conditions for aircraft equipment (External effects). Requirements, standards and test methods".
09-2004 30.12.2004	On implementing Recommended Circular to AP-VD "Airworthiness Standards for APU"
01-2005 17.06.2005	On the order of submitting Service Bulletins for IAC AR approval.
02-2005 17.06.2005	The procedure for using Qualification Requirements KT-200A " Processing of aeronavigation data.
04-2005 29.12.2005	On implementing Circular AC 21.1 "Certification documents"
01-2006 16.02.2006	Certification of aeronautical product's replaced components manufactured by Repair Station
02-2006 19.07.2006	On implementing Guidances on Materials/Semiproducts certification
03-2006 04.10.2006	On implementing Recommended Circular to AP-33 "Airworthiness Standards for Engines"
01-2007 16.03.2007	On detailing the procedure for appointment of IAC AR expert-auditors and prolongation of their powers.
02-2007 24.09.2007	Procedure for issuing a Supplemental Type Certificate
03-07 06.12.2007	On implementing Recommended Circulars to AP-33 "Airworthiness Standards for Engines"
04-07 06.12.2007	On implementing Recommended Circular to AP-25 "Airworthiness Standard for Transport Category Airplanes"
01-08 18.02.2008	On implementing Manual for certification centres accreditation (PAI 2008)
02-08 16.09.2008	On implementing Qualifying requirements KT-235 " Onboard equipment ГТСС/ЖКК"
03-2008 27.11.2008	Appliances production certification ( <i>substitute DL 1-98 of 09.01.1998</i> ).
01-2009 30.09.2009	On implementing Guidance 23-29M "Method of compliance of the materials used in aircraft design with Aviation Regulation requirements
02-2009 10.11.2009	On implementing Qualifying requirements KT-265 " HF channel data transmission radio station. Standards of the minimal operational characteristics for an aviation mobile high-frequency line of

17.06.2011

	data transmission "
03-2009 16.11.2009	On implementing Guidance 25-11A on electronic indication systems certification for transport category aircraft
01-2010 08.02.2010	On implementing Qualifying requirements KT 23-01 "The COSPAS-SARSAT VHF/UHF emergency radio beacons" (edition 2)
02-2010 08.02.2010	On implementing Qualifying requirements KT 23-05 "Onboard MF radio station of mode VDL 4 of a line of data transmission "ground - air - ground " and "air - air" (edition 1)
03-2010 27.02.2010	On implementing Guidance on certification of the transport category airplanes which are carrying out all-weather operations with decision altitude from 60m down to 30m (to the section 2 TT-BII)
04-2010 02.04.2010	Issuance of the Export Approvals for aeronautical product components
05-2010 06.09.2010	On implementing Guidance P-4754 on certification of consideration for highly-integrated or complex aircraft systems and Guidance P-4761 Methods for conducting the safety assessment on airborne systems and equipment.
01-2011 07.02.2011	On implementing Recommended practice for the test laboratories/centres accreditation (MP 2010)
02-2011 08.02.2011	On implementing Guidance P-CIIM-04-2010 on Materials/Semiproducts certification
03-2008/2011 18.02.2011	Procedures for production certification and manufacturing requirements to the aeronautical products components of III class, Category A (Appliances) received the IAC AR Appliance Design Approval or IAC AR Approval letter .
04-2011 18.02.2011	Approval Tags for aeronautical product components to be delivered
05-2011 22.02.2011	On implementing Recommended Circulars to AP-33 "Airworthiness Standards for Engines": - PII-D33.3(7) – Engine Components fire resistance and fire proofness tests; - PII-AII33.87 – Calibration and Endurance tests, Fault detection after turbine engines disassembly
06-2011 23.03.2011	On implementing Qualifying requirements KT229 " Onboard equipment ГНСС/SBAS"
07-2011 23.03.2011	On implementing Qualifying requirements KT34-01 " Onboard Selective Navigation Equipment" (Issue 4)
08-2011 08.04.2011	On implementing Guidance 145.1B "Repair Station Certification"
09-2011 17.06.2011	On implementing Qualifying requirements KT254 "Design Assurance Guidance for Airborne Electronic Hardware" and Recommended Material PM-254

### THE LIST OF INVALID IAC AR DIRECTIVE LETTERS

NUMBER OF INVALID DL	EFFECTIVE IAC AR DOCUMENT
1-92	DL 8-95
2-92	Aviation Regulation AP-21
5-93	AP-34
05-93	DL 10-94/97
6-93	"Guidelines for Certification and Inspection of Aviation Production" (Document 21.2B)
7-93	
8-93	
9-94	
10-94	DL 10-94/97
6-95	DL 6-95/2001
11-95	DL 11-95/2001
2-96	None
3-96	DL 04-2004
10-94/97	

17.06.2011

Part 8 of DL 11-95/2001	
01-2002	None
01-2004	DL 01-2005
5-2000	DL 01-2006
01-2003	DL 02-2006
04-93	Circular 21.1 Certification documentation
1-98	DL03-2008
8-95	DL 01-2009
4-96	DL 04-2010
02-2006 As related to Guidance P-CIQM-04 (Issue 3)	DL 02-2011
03-2008	DL 03-2008/2011
